LOGNOTE -- Acting Chief, Operations Group, 27 March 1984

1. [ ] Following from D/FBIS' staff meeting today: 25X1
  - [ ] has been selected to replace [ ] as 25X1  
SA/DDS&T effective 2 April.
  - The DDS&T is working on a response to the series of proposed changes outlined by the DCI in his 16 March speech. FBIS will be submitting a report to the DDS&T on its implementation within 2 or 3 weeks.
  - Although one proposal was to make AWP's optional, D/FBIS' policy will be to require them for problem employees and for new managers, as well as for group and staff chiefs.
  - Evan Hineman will approve assignments at the SIS-01/02 level.
  - DDS&T has contributed \$150K to DDA for Rosslyn parking. It is expected eventually to be free, but procedures for insuring fairness will have to be worked out.
  - The DCI has been briefed on the necessity to maintain a unique retirement system for CIA and will be pressing the case for this on high.
  - The current CDC course members look like a lively bunch and we will want to put our best briefers forward (e.g., C/Ops).
  - [ ] 25X1
  - Hineman has taken to dropping into various offices of various Offices unannounced, so beware.
  - A draft report of the task force on the status of women in the Agency is due out today. C/AG was a member.
  - Line managers should talk up the FBIS party among their staffs, to encourage a heavy turnout. It's the only FBIS annual function and past turnouts have been a bit thin.
  - On delinquent PAR's: Supervisors at both ends of the Hqs-field pipeline should try to backdate the initial PAR after a reassignment to the date of the most recent PAR, so that no gap occurs to bother the computer.
